

Technical Data Sheet**TDS****General Description**

Product Name	Chrome Oxide Green GN4058
Type	Green pigment
Delivery Form	Powder
Color Index	Pigment green 17 (77288)
CAS	1308-38-9
EINECS NO.	215-160-9

Physical and Chemical properties

Test Items	Specification
Appearance	Green powder
Content of Cr ₂ O ₃ , %	98 min.
Shade	Yellowish
Oil Absorption, %	15-25
Residue (on 325mesh sieve), %	0.1 max.
Water soluble, %	0.3 max.
Moisture, %	0.2 max.
PH	6-8
Tinting Strength, %	95-105

Application

Asphalt, ceramic, concrete masonry blocks, concrete roofing tiles, construction materials, enamel, engobes, façade elements, fiber cement, glazes, in situ concrete, laminate paper, mortar, paving stones, plaster, roofing felts, sand-lime bricks, screed, paints, coatings, plastic.

Package

25kg bag with pallets.
