

Technical Data Sheet**TDS****General Description**

Product Name	Chrome Oxide Green GX8090
Type	Green pigment
Delivery Form	Powder
Color Index	Pigment green 17 (77288)
CAS	1308-38-9
EINECS NO.	215-160-9

Physical and Chemical properties

Test Items	Specification
Appearance	Green powder
Content of Cr ₂ O ₃ , %	99 min.
Shade	Bluish
Oil Absorption, %	15-25
Residue (on 325mesh sieve), %	0.1 max.
Water soluble, %	0.3 max.
Moisture, %	0.2 max.
Tinting Strength, %	95-105
PH Value	6-8

Application

Asphalt, ceramic, concrete masonry blocks, concrete roofing tiles, construction materials, enamel, engobes, facade elements, fiber cement, glazes, in situ concrete, laminate paper, mortar, paving stones, plaster, roofing felts, sand-lime bricks, screed, paints, coatings, plastic.

Package

25kg bag with pallets.
