

Technical Data Sheet

TDS

General Description

Product Name	Titanium Dioxide NA602
Delivery Form	Powder
Color Index	Pigment white 6
CAS	13463-67-7, 1317-80-2, 1317-70-0
EINECS NO.	236-675-5

Physical and Chemical properties

Test Items	Specification
Appearance	White powder
Purity, %	98.5 min.
Crystallographic Form	Anatase
Particle Size, nm	30 max.
Specific Surface Area, m ² /g	120 min.
Apparent Density, g/cm ³	0.40 max.

Application

Sewage treatment, air purification, catalyst, self-cleaning glass, self-cleaning ceramics, antibacterial material, drinking water cleaning, offensive odor clearings, degrading organic substances, sulfur removing, benzene reducing and other environment protection fields etc.

Package

25kg bag with pallets
